TWISTED TOWER OF WISHES

by Ed Nicholson, for mid-level adventurer.

The tower stands on a rocky outcrop high above the bustling city. The sky is a brilliant shade of blue, and the sun shines down upon the scene. The tower is made of a dark, polished stone, and it rises majestically into the sky. As you approach the base of the tower, you notice that it is guarded by a group of armed guards. The guards are dressed in black armor and carry long swords. They are standing in a semi-circle, forming a barrier around the entrance of the tower.

You approach the guards and present your credentials to them. They study them for a moment, then nod and step aside to allow you to enter. As you step through the threshold, the guards lower their weapons and arc a little of surprise.

The tower is dark and musty inside, with dim light coming from small windows. The floor is covered in cobwebs and dust. You can hear the faint sound of footsteps in the darkness. As you explore the tower, you notice that the walls are lined with shelves filled with various objects. The shelves contain books, scrolls, and other items.

You continue to climb higher, searching for any signs of life or activity. Suddenly, you hear a faint noise. It sounds like someone is moving just outside the door. You cautiously step forward and peer around the corner. You see a figure standing in the doorway, silhouetted against the light. The figure is dressed in dark clothing and is holding a longbow.
